

# MBA Device Manager+

## Plugin for PowerSchool®

Easily create, track and manage student and staff devices from district or by school. Perfect for 1:1 initiatives.

### Manage devices quickly and easily

Take advantage of the MBA Device Manager to create, track and manage student and staff devices in PowerSchool.

Manage devices from district or by school, quickly mass assign and unassign devices. Easily track repairs and device status.

- Record device name, type, operating system, model number, manufacturer, serial number, purchased date, status
- Assign devices to both students and staff
- Assign devices by individual or mass assign to a group
- Set defaults for insurance policy, usage policy agreements
- Track dates, details and costs of device repairs

#### Device Management

General Functions	Description
Manage Devices	Add devices, edit device information, or inactivate devices.
