2022 Issue #7 WI

## END-OF-YEAR REVIEW

Believe it or not our Wisconsin State Reporting Team has already marked its calendars for the **next DPI Snapshot on December 6, 2022**. During this Snapshot there are data elements from the 21-22 school year that are collected.

1. **21-22 Year End Completion data**
  - a. **Year End Attendance, Public & Choice Schools**
  - b. **Discipline, Public Schools**
  - c. **Completion, Public & Choice Schools**
2. **21-22 Roster & CTE data, Public Schools**

With many districts having completed the EOY (End-of-Year) process, we strongly encourage taking the time now to review this data. We're hopeful that the suggested steps below will save you time in December.

1. **RUN THE ADA/ADM BY STUDENT REPORT** - Select the full 21-22 term in the upper-right hand corner of the Start Page. Click on System Reports > ADA/ADM By Student. Select the begin and end date of last school year and run the report for all students.
  - Membership should = Attendance + Absence.
  - If you see zeros or negative numbers submit a support case.
2. **REVIEW PUBLISHED DISCIPLINE DATA** - Export from WISEdata portal the available Discipline exports. Give to appropriate staff to review.
3. **REVIEW PUBLISHED ENROLLMENTS & DEMOGRAPHICS** - From your 21-22 Data Exchange profile click the Review button in the center > Choose Category = Enrollment Published and Choose Data View = Student Schools. Clear cache then export this information.
  - Do all students have an Exit Date?
  - Do all students have an Exit Type?
4. **REVIEW PUBLISHED ROSTER DATA** - In the WISEdata portal, the School Roster Details page provides a school-level look at your data. This along with several Roster Exports in the WISEdata portal can be used to compare to your Master Schedule or published data in your Data Exchange. Organization Schedules and Student Sections can be exported and used to compare to the data in the WISEdata portal.
5. **REVIEW PUBLISHED CTE DATA** - Several exports are available in the WISEdata portal that can be used to compare to your published data. From your 21-22 Data Exchange profile click the Review button in the center > Choose Category = Program Published and Choose Data View = Student CTE Programs. Clear cache then export this information.
  - Do you see the students you expected to see?

**UPDATE**

**TIMELY INITIAL EVALUATIONS (INDICATOR 11)-**

Please note a correction to our previous directions for creating a new Special Education Evaluation Special Program.

- Create a Special Program, from Start Page, District Office> Click on Special Programs in left-hand navigation menu. Click NEW > Enter Program name = **Special Education Evaluation** > Click Submit. May need to wait for overnight process to run for this option to show in the drop-down menu.

**This Student Program must match the bolded text above exactly.**

**Public Instruction**

**WISE DATA HELP**

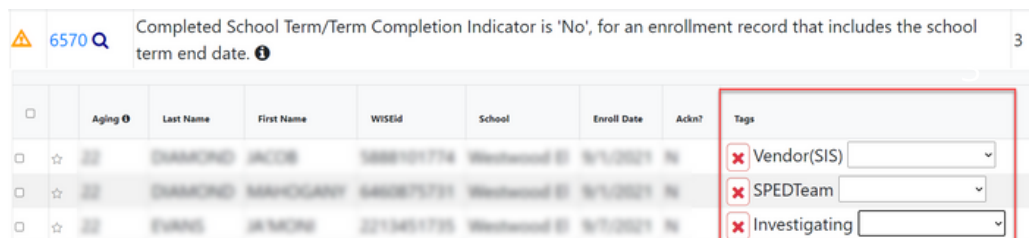

For more information on the WISEdata portal or other applications visit the link to below to view their [WISE Mini Tutorials](#).

**TAG IT!**

**WISEDATA TO-DO**

The staff at the Department of Public Instruction (DPI) are constantly working to make improvements to their portals that will help make your job easier. One such improvement has been the addition of TAGS. These tags allow you to indicate who is responsible for correcting the error or warning or may help you indicate where you are at in your investigation of the issue.

One example of using these tags would be selecting Vendor (SIS) as the tag on an error or warning that we have identified as a "known issue" and have assigned a PSSR to a support case you have submitted with us.

Additionally, using labels like SPEDTeam, ELTeam or CTETeam can help you indicate specific departments or teams that you are working with to resolve an error or warning.

**UPCOMING DPI EVENTS**

August 16, 2022  
**CTE Workshop**  
 9 AM -12 PM

**HELP WITH SSO**

Below is a Help Doc that your IT Team may want to review if considering SSO.

22.7.3	PSSR-294871, WI ED-FI TRIBAL AFFILIATION UPDATE FOR 22-23 (in testing phase), The state has decided that they only want one Tribal Affiliation published in the StudentEducationOrganziationAssociation resource. With 22-23 forward, we will be sending the first Tribal Affiliation.

## SINGLE SIGN-ON (SSO)?

Many districts are having conversations about SSO in hopes of providing greater security in regards to their data and information. Single Sign-on is an authentication method that allows users to log in with one ID/password to several related but independent systems. If your district is discussing this please contact Sean Cawby at [scawby@mba-link.com](mailto:scawby@mba-link.com), to discuss the setup that will need to be done to ensure that our Support Specialists still have access to your SIS.
